## Approvals

The INJEX30 Medical Injector has been adjusted to the special needs of Skin Treatment

INJEX Beauty Line

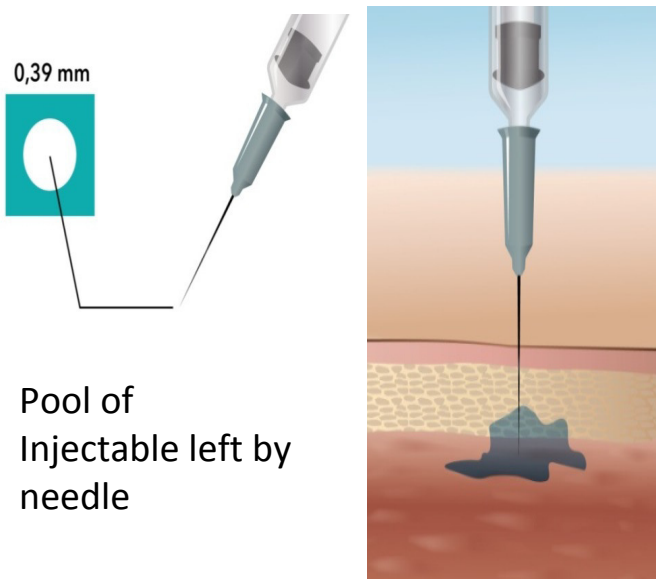

**INJEX**

Instead of painfully pinholing the Skin, just use the natural way to bring the Injectable to the point of care....

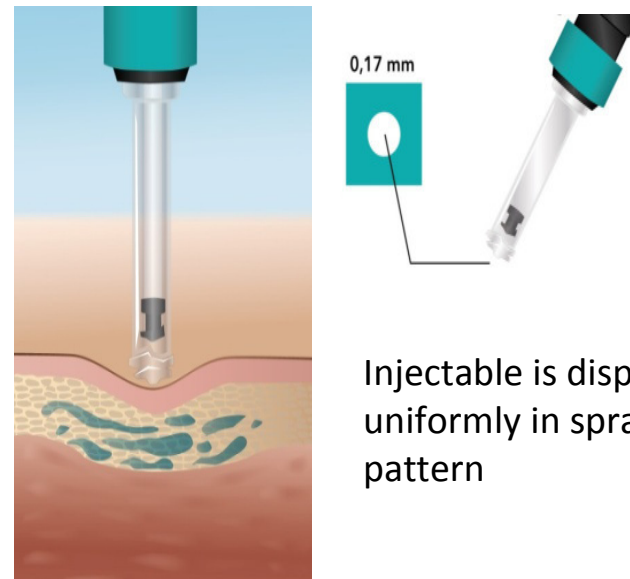

### Needle Syringe

Pool of  
Injectable left by  
needle

### Needle-Free Injection

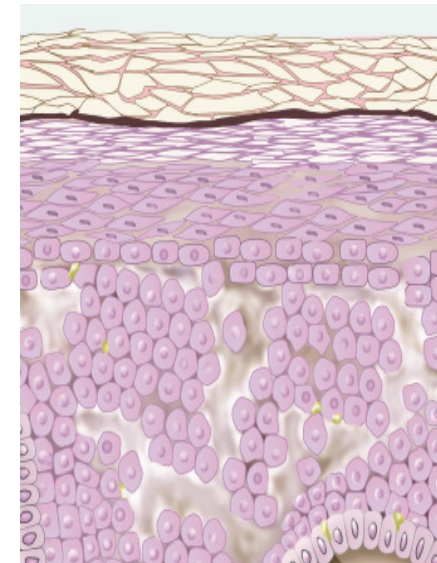

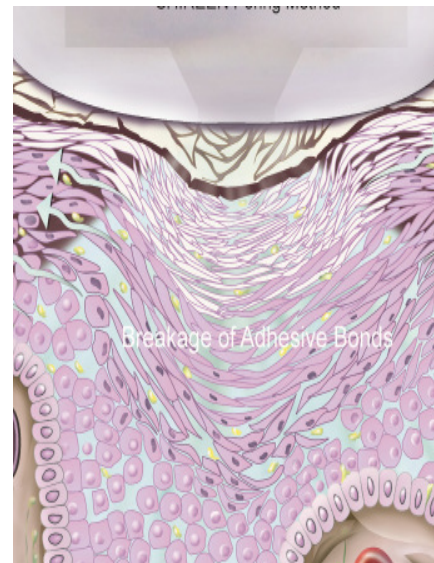

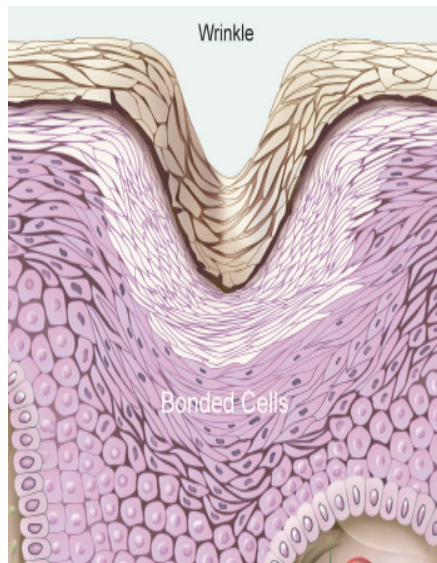

Injectable is dispensed  
uniformly in spray like  
pattern

**...use the natural pores, avoid pain and improve the effectiveness**

# Using the Pores, the INJEX Hydroporation delivers a cone shaped Distribution of the Injectable

INJEX Poring Fluid  
separates the bonded Skin Cells ...  
hydrates the Skin and ....  
deposits Hyaluronic Acid in  
all layers of the Epidermis

**INJEX**

# Impressive Results to be maintained every one to three Months – painless, no needle, no blood

before

after the Treatment

**The human Skin already starts the aging process in peoples thirties.**

**The convenient application of the needle free INJEX System will encourage customers to come to the treatment already in an early stage**

**Hyaluronic Acid is not only useful to treat Wrinkles – it can be applied as a vehicle to convey other active agents into the Skin and Body, such as vitamins**

**These ingredients may include all sorts of wellness and wellbeing agents, making the INJEX Needle free Treatment a real life style product**

**So – beyond the classic Treatment for the mature Population; new customer Groups may be developed from Age 30 plus**

**INJEX**
